Beautiful, Practical and Built to Save Lives.

R2P's custom-engineered frames are specifically designed to withstand breach assaults by multiple attackers.

R2P doors can protect against the most likely threat: inside attackers who evade exterior security.

FEATURES

- Meet DOS Standards:** R2P doors are the first to meet rigorous new DOS SD-STD-01.01 Revision H Certification standards for forced entry and ballistic-resistant doors.
- Lightweight/Ergonomic:** R2P doors are half the weight of comparable doors which makes them easy to install/operate and more cost-efficient due to reduced wear and tear.
- Wood Style:** R2P addresses lifesaving security needs with a protective wooden door that is functionally and ergonomically superior.
- Customizable:** R2P doors can be customized to accommodate any architectural preferences and protection needs, as well as all locking/security systems and advanced electronic access controls.
- Discreet:** Turn any room into a safe room, while keeping protection hidden in plain sight.
- Secure in Place:** R2P doors provide the ability to secure in place and buy critical time needed for appropriate forces to respond, thus saving lives.
- Excellent Value:** R2P doors offer unrivaled protection, quality and aesthetics, with no ongoing maintenance cost.
